Keep productivity high with the compact 4-in-1 multifunctional

Compact and stylish

This compact and highly affordable 4-in-1 is perfect for use in the office or at home. Productive and stylish it offers high quality print, copy, scan and fax functionality in one space saving device.

Superior image quality

An enhanced print resolution of up to 1200 x 600 dpi delivers professional laser output for all your work, with sharp text and fine graphics. Impress customers, colleagues and friends by printing professional looking double-sided documents – whilst saving paper at the same time.

35-sheet Automatic Document Feeder

For added productivity, multi-page documents can be copied, scanned and faxed with ease using the incorporated 35-sheet ADF.

Easy to use

The i-SENSYS MF4550d features a simple and intuitive LCD interface designed for easy operation. With 5 lines of text plus animations, features can be quickly and easily accessed and more information can be communicated saving time and effort.

Save time and energy

With an output speed of 25 ppm and a Fast First Copy Out Time of less than 9 seconds, prints and copies are delivered the moment you need them. With quick recovery from sleep mode, thanks to Quick First-Print technologies, long waits for your documents are a thing of the past. Additionally, this economical device uses only 3 watts in sleep mode, ensuring energy efficiency.

Versatile colour scanning

Scanning colour documents and photos is easy and highly versatile using a resolution as high as 9600 x 9600 dpi. Files can be scanned directly to email, or searchable PDF using the MF Toolbox, enabling them to be quickly retrieved in the future.

All-in-One cartridge

The All-In-One recyclable cartridge ensures maintenance-free operation and continuous high quality output. Replace the compact cartridge in seconds – containing toner, drum and cleaning units – with an Authentic Canon Laser Cartridge and your multifunctional is as good as new.
